

Polytech France

Become a Polytech engineer in France !

A program from the Polytech Group

- ▶ 16 Graduate schools of engineering
- ▶ Intensive language courses
- ▶ French Engineering Degree

Join a large network of graduate engineering schools in France and earn an engineering degree. The Polytech Group enables you access to excellent scientific and technological courses, working closely with companies and research laboratories.

Polytech France is a 3-year-program:

- ▶ One year of immersion in French culture (intensive French language courses, cultural visits and visits to other schools in the Polytech Group...) and training in study methodology.
- ▶ Two years in the engineering cycle in one of the engineering schools in the Polytech Group.

Key Figures

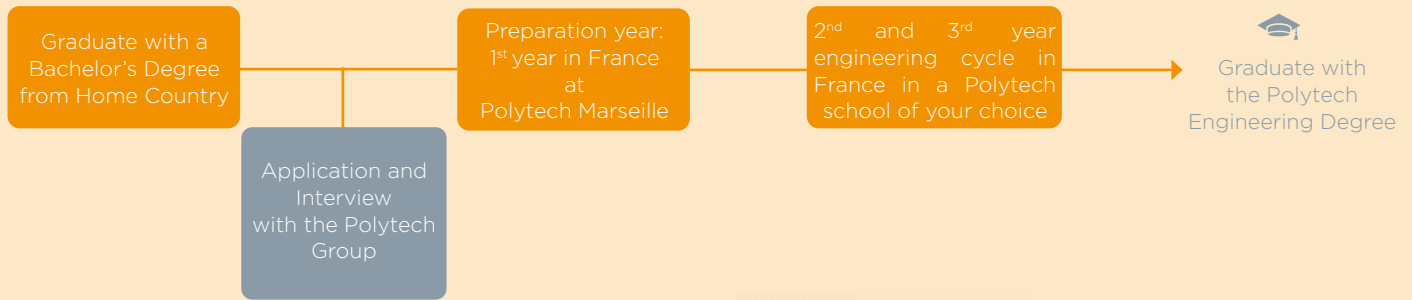

- 📍 16 graduate schools of engineering
- 👥 4 partner schools : ENSIBS, ENSIM, ISEL and ESGT
- ⚙️ 12 scientific fields
- 📖 100+ majors
- 👨‍🎓 a network of 100 000+ Polytech Alumni
- 🎓 3 900 graduates every year

The group of 16 French public graduate engineering faculties

Become an engineer

Tailored Support

Program

A year of preparation to enter the engineering cycle in Polytech Marseille, Aix-Marseille University, France

Learn how to present a project in French, master technical vocabulary in your domain of studies, learn about French culture and work methods that are specific to the engineering profession.

- ▶ 1 semester of intensive French courses (from September to December): oral comprehension, oral and written expression.
- ▶ 1 semester of French courses methodology, project management and scientific tutorials (from January to May).
- ▶ At the end of the year, a B2 level in French is required to access the engineering cycle. You must succeed the TCF exam.

2nd and 3rd year of the engineering cycle in one of the 15 schools in the Polytech Group.

Choose the speciality you wish to study in total immersion with French students and work towards your degree.

- ▶ 2nd year: 2 semesters of courses in your speciality (Master's level 1).
- ▶ 3rd year: 1 semester of courses in your speciality (Master's level 2). 1 semester internship in a company, anywhere in the world.

How to apply?

Prerequisites

- ▶ Bachelor's Degree or above.
- ▶ French level A2 minimum at the time of application.

Application Procedure

The application can be downloaded at the following address : <https://www.polytech-reseau.org/en/polytech-france-programme/>

The completed application should be sent with the required documents by email to **PolytechFrance@polytech-reseau.org**

Selected candidates will then be interviewed. Interviews will be through video conference

Schedule

- ▶ Admissions open in: October
- ▶ Admissions close in: March
- ▶ Interviews for candidates: Starting in May

Programme Fees

Preparation year: 6000€ (courses, visits, travel and accommodation for one week of immersion in another school, administrative fees).

2nd and 3rd year engineering cycle: University fees per year.

Majors Opened to this program and campuses associated.
 Note that the campuses are those for the last two years of the program.
 The first year is located in Aix Marseille University.

 Applied Mathematics	
Major	Campus
Mathematics and modelling Engineering	Polytech Clermont
Software Engineering and Statistics	Polytech Lille
Applied Mathematics and Modelling	Polytech Lyon
Computer science	Polytech Tours
